BRICK VENEERS

The beauty of concrete masonry lies in the natural characteristics of the locally sourced aggregates combining with the durability and dimensional accuracy that only concrete can provide. 100% New Zealand made, our low maintenance, low Carbon brick veneers are the perfect cladding choice for our harsh, changeable climate.

Tasman Coastal

Dimensions: 290 x 70 x 70mm

Units per m²: 42

Strata

Dimensions: 290 x 75 x 70mm

Units per m²: 39

PLEASE NOTE: Colour Blends are indicative only. Viewing a sample before purchasing is highly recommended. Similar to features of real stone, Firth concrete bricks will have natural variation in colours and characteristics. So when choosing Firth bricks, please expect colour hue variations and regional differences due to locally sourced raw materials. It's all part of the natural beauty of our masonry products.
